IIT Bhubaneswar

Electronics and Communication Engineering

Third-Year Undergraduate

Education

Year	Degree/Examination	Institute	%/CGPA
2021-Present	4-Year Bachelor of Technology (ECE)	Indian Institute of Technology Bhubaneswar	7.79/10
2021	Std. XII (ISC)	Loyola School, Bhubaneswar	95%
2019	Std. X (ICSE)	Loyola School, Bhubaneswar	96%

Projects

Hostel Management Portal

(September 2022 - October 2022)

- Web-based solution for filing complaints about hostel issues. Option to file public complaints which can be up-voted for better reach and attention from the administration.
- Admin side has 3 features, 'Accept', 'Reject' or 'Escalate' the complaint to higher authorities.
- The website (<https://hmp.webnd.iitbbs.org/index.php>) will be deployed for all 5 hostels (2500+ residents approx) at IIT Bhubaneswar.
- Technologies used (4): HTML5, Bootstrap, PHP and MySQL.

Smart Naka

(December 2022 - January 2023)

- It can fetch the information about a queried vehicle in real-time in the central database of stolen vehicles of the government and verify whether that vehicle is stolen or not.
- The app also allows users to manually input vehicle details for searching. Two options are available: Searching by Registration Number and Advanced Search. Save or share a PDF containing full details of the stolen vehicle fetched by API.
- Real Time Camera Scan: Pointing the camera towards a vehicle number will instantly recognise the number from the camera feed (without even clicking a photo) and tell whether it is stolen. Still working on this feature.
- Technologies used (3): React Native, TypeScript and Figma. Project [link](#).

Scholastic Achievements

- 3rd position in CodeRelay Hackathon: My team of 3 members was required to build a web-based solution to a Complaint Management Portal.
- Our team was selected as one of the top 25 finalists out of over 1000+ participants from across India in the Ethos Hackathon, organized by IIT Guwahati.
- Silver Medal in Inter IIT Tech Meet 11.0.
- Secured All India Rank of 3,348 among 1.25+ lakhs candidates in Joint Entrance Examination (JEE Advance) 2021.
- Certificate of appreciation for qualifying for National Talent Search Examination (NTSE 2018-19).

Key Skills

Programming Languages: C, C++, JavaScript.

Tools: Git and Github.

Framework: React.js, React Native, Node.js, MongoDB.

Others: Figma.

Data Structures and Algorithms: Leetcode Account: <https://leetcode.com/hv789>.

Soft Skills: Strong leadership, Communication, Adaptability skills, Analytical Skills, Teamwork, and Positive Attitude.
